

FREE support group programs and materials

# International Low Vision Support Group

Hosted by MD Support, a 501(c)(3) public service organization

Our program can help you provide much-needed **information** for your low vision support group.

At **absolutely no cost**, we bring leading experts to your support group via **Internet audio/visual conferencing**, providing presentations specially-designed for laypeople. And if you affiliate with the ILVSG, you will also receive a **starter kit**, **monthly newsletters** and other **free materials**.

All you need is a **computer with speakers** to access these presentations **any time**. A complete **facilitator's kit** and **personal support** also makes it easy for registered affiliates to start and run successful programs.

Since 2006, MD Support has helped bring **current and accurate information** from respected professionals to **more than 200** low vision support groups around the world.

## *Over 70 presentations now online include:*

- "Hallucinations and Low Vision"
- "Navigating Everyday Tasks With Less Stress"
- "Understanding Stem Cell Therapy"
- "Summary of Research and Treatment"
- "Facing Technophobia"
- "What You Should Know About Glaucoma"
- "Fall Prevention and Exercise"
- "Diabetes and Vision Loss"
- "Nutrition: Smart Medicine for the Eyes"
